How to Process Hair Color Under a Dryer | LEAFtv How to Process Hair Color Under ... but it's best to stay within one to two shades of your ... Deep-condition your hair two days before coloring.

5 Ways to Dye Wood - wikiHow The more dye that you add, the more saturated the color will be (and the less water you use, too). Light wood works the best with food coloring as it takes on color much more easily. Mix it up well - food coloring has a tendency to take a while to dissolve if it isn't given a push in the right direction. The Best Ways to Color Hair With Food Coloring - wikiHow To color your hair with food coloring, start by mixing food coloring with some white conditioner in a bowl until you get the color you're going for. Then, use your hands or a brush to apply the dye to your hair, starting at the roots and working your way to the ends.
